DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

In claim 1, line 16, the term "bent" appears to be a translation error. After talking to applicant it would appear this term should be "connected" or the like. At page 3, line 4 of the specification the same translation problem occurs. Correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. Claims 1-5 are allowed. Correction as noted above must be made.
3. The following is a statement of reasons for the indication of allowable subject matter: Gallina is the closest prior art but the structure lacks a waterproof and ventilation inner sole. Providing, such an additional sole to Gallina would destroy the reference since it essentially teaches reducing the number of components to provide lightweight footwear, see col. 4, lines 54-62. Moreover, the only liner taught by Gallina is an "additional over-liner"; col. 1, line 36. Ayers '338 lacks, among other things, the innersole (320 being a waterproof and ventilation layer and periphery portion attached to the vamp member (11) via a glue layer. Nor would it appear obvious to modify the innersole (32) of Ayers without using improper hindsight.
